

# SECA 664

With its high capacity of 360 kg, these scales make it easy to weigh even heavy patients. Thanks to its extremely low platform and the self-lowering ramps, the scales are easy to access. The secure side rails give additional safety. An integrated pre-TARE function determines in seconds the net weight of the patient utilising internal weight memory.

The swivelling LCD display with large letters is easy to read both for the patient and for the carer. The seca 664 can be folded up in no time and can be transported anywhere thanks to its castors.

# SECA 676

Stable, functional and mobile: thanks to its large platform and robust handrail, the seca 676 is very versatile. Patients can be weighed sitting in a wheelchair or on a chair. Its high capacity makes the seca 676 ideal for weighing very heavy persons. At the same time, the scales can be folded together after use in no time at all to save space. The sturdy locking device between rail and platform ensures that the seca 676 stands safely even when folded together. The handrail also serves as handle when the scales are folded together, allowing the scales to be moved around or stowed away effortlessly and quickly on its smooth running transport castors.
