

# SECA 354 Baby Scale

With their dual function, these baby scales are a small sensation: at the touch of a button, the tray can be detached quickly and easily from the base leaving you with robust flat scales for children

weighing up to 20kg. As the two elements are securely connected with one another, it is absolutely safe to lift and transport the scales. The soft, round shape of the tray gives the baby that so very important feeling of safety and security. With the breast-milk-intake function it is easy to determine the exact amount of milk the baby has taken when being breast-fed.
