

MODEL: HM-9-403

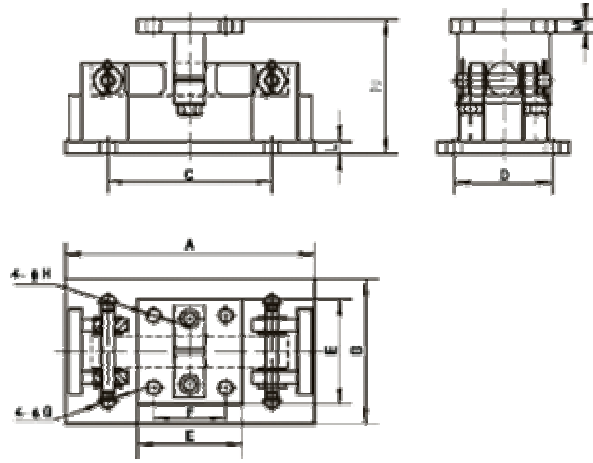

Weighing Assembly HM-9-403

	CAPACITY	MODEL
Alloy steel, assembled with		
H9D、B9D	1-5K	HM-9-403-1/5K
	10-35K	HM-9-403-10/35K
	50-75K	HM-9-403-50/75K

FEATURES

Alloy steel integrative assembly can be installed easily, suitable for testing slight dynamic load under heavy static load, excellent anti-side load ability. Suitable for hopper and tank scales found in petroleum, chemical engineering and electronic power industries. Alloy steel material can withstand environment and gas with slight corrosion.
